CSI# 123600 Countertop Material

PaperStone is durable and is recommended for residential kitchen and bath and commercial uses, indoor and out. It isn't just an attractive new material that is produced in a socially responsible manner, it is also strong and tough. It has steel-like strength, stone-like beauty and it can be worked like fine hardwoods. PaperStone is innovative and cost competitive and comes in 7 colors.

	CATEGORY	RATING	KEY POINTS
MATERIAL	Recycled/Renewable Content		100% post-consumer recycled paper
	End of Life		Landfill
	Production Process		Saturated with resin, pressed with heat and pressure
PRODUCT USE	Installation		Same tools and techniques as hardwoods
	Longevity/Durability		Doesn't delaminate, 15 year warranty
	Maintenance		Seal with finish
	Initial Cost		30" x 48" by 3/4" thick - \$46.00/sf
	Resource Savings		
HEALTH	Installation Toxins		No VOC's, emissions, or formaldehyde, natural waxes
	Manufacturing Toxins		No VOC's, emissions or formaldehyde
NOTES	Company Profile	A 1" by 60" by 144" slab of PaperStone Certified (versus a regular phenolic composite manufactured from virgin fiber and a regular, commercially available, solvent-based resin) saves: 1233 gallons of water, 2.03 million BTU's of energy, 131 pounds of solid waste, 254 pounds of greenhouse gases, 55 pounds of petroleum-based phenol, 22 pounds of natural gas-based methanol. Paper mill run with hog fuel.
